A note from the butcher on recommended cuts to choose from your beef and pricing.

We can cut each half of beef differently.

Jane buys the (A) ½ of a beef from Farmer John. John buys the (B) ½ of the same beef from farmer John. Jane and John can get each ½ of beef cut differently. In this scenario, each ½ of beef gets a different order number.

We can divide the whole beef into different portions.

We can also divide an identically cut whole beef in halves, thirds, or quarters. Each half, third, or quarter would be cut identically. In this scenario the whole beef would have one order number, however we would divide the beef as you request.

We cannot cut ¼, s of a beef differently.

We cannot cut the (A) ¼ of a beef differently than opposite (B) ¼ of the beef. For example, if Jane, John, Pete, & James each order a ¼ of a beef all 4 customers can't get their ¼ of beef cut like they prefer. Jane & John must get their (2) ¼, s of beef cut identical just as Pete & James must get their (2) ¼, s of beef cut the same. Remember that a ½ of a beef can be cut differently than the opposite ½ of beef. There will need to be some negotiating between Jane & John cut preferences and also on Pete & James cut preferences.

1. **\$40 Kill Fee. \$100 Kill Fee if the beef is 30+ months of age. If beef is 30+ months of age please consult with WMP before filling out the cut sheet.**
2. **\$.75 per LB butchering charge. (based on hanging/rail/carcass LBS)**
 - a. **\$.78 per LB carcass weight cut charge if the beef carcass weight is more than 800 LBS**
 - b. **\$.78 per LB carcass weight cut charge if the beef carcass weight is less than 450 LBS**
3. **\$5.00 per LB for jerky. (We charge based on wet weight. Jerky shrinks approximately 60%).**
4. **\$1.00 per LB for burger patties. (25 LB min)**
5. **\$1.00 per LB for stew meat/beef tips if you order more than 5 lbs per half of beef.**
6. **\$.05 per LB beef carcass weight for packing steaks 1 per package. (based on hanging/rail/carcass LBS)**
7. **\$.05 per LB beef carcass weight for extra lean burger. (bases on hanging/rail/carcass LBS)**

The only exception to this charge is if the beef is already very lean. Some customers prefer very lean beef so they purposefully do not fatten their beef with extra feed. However, if you fatten your beef significantly and want your burger extra lean we will charge you extra. As a side note, it is nearly impossible to have extra lean burger from a fattened beef simply because the marbling in the meat will not allow for the burger to be extra lean. We can trim external fat but we can't trim away the fat marbling in the muscles of the beef.
8. **Beef dividing fees. \$10 to portion a beef in halves. \$16 to portion a whole beef in quarters.**
9. **\$20 fee for your beef to hang more than 14 days. Us allowing you to hang your beef more than 14 days will be contingent on our cooler having the space at the time.**
10. **Other misc. fees. save tail - \$2 / save tongue - \$2 / save heart - \$2 / save kidneys - \$2 / save liver – free**
11. **(Bulk package in a box all the bones \$6) (Cut all bones into small pieces and bulk package in box \$10) (Cut all bones into small pieces and package in 2-3 LB bags \$15)**

The most popular cuts are highlighted in **RED**

1. Steaks

- a. Thickness
 - i. **1"**
 - ii. ½"
 - iii. ¾"
 - iv. 1 ¼"
 - v. 1 ½"
 - vi. Custom (specify_____)
- b. Steaks per package
 - i. **2**
 - ii. 3
 - iii. 4
 - iv. 1 (extra charge) \$.05 per LB carcass hanging weight.
 - v. Custom (specify_____)
 1. If you choose 3 or 4 steaks per package the steaks do not vacuum seal as well. We highly recommend no more than 2 steaks per package.
- c. Steak preferences from each respective section of the beef.
 - i. Rib Section
 1. **Ribeye Steaks**
 2. Boneless Ribeye Steaks
